Idit Aharon of Tzfat

Coloring Book for Children
and Adults

The Mystic and Holy City of Tzfat is famous for its great Jewish spirituality. As it sits high in the mountains of the Galilee, perched over Kinerit (the Sea of Galilee) it has generations of great Jewish scholars, writers, and artists. It's the great city of Air and Light. So it is only natural that after the city was liberated by Jewish forces during the war of independence, that it would spring back to life as a great center of Jewish learning and art.

Among the artists who have lived in Tzfat since 1949, Idit Aharon has made her reputation for great works of color and form on canvass. She sells her original works in the great Artist row, directly across from the synagogue of the great Rabbi, Rabbi Yosef Caro

She has studied color for decades, and she focuses her work on Jewish religious themes on Kabbalistic motifs.

Now, YOU TOO can color along with Idit as we release this first edition of her inks for you to color with pens or crayons. Color along with Idit and join in the millennial old artists tradition of Tzfat. Each work of art is lovingly explained with full color images that attach the line art with the city and the people of Tzfat. So you can join with Idit and explore her great art intimately and with great fun. For children or adults, the coloring of these works of art is sure to open your heart with the love of Klal Yisrael, and allow you to explore and taste the mysticism of Tzfat.
